

Repairs

***We make it happen!**

WHY?

The Canvas Works.

...because we endorse reuse over new fabrication!

We have the resources and knowledge to give your item new life. Often threads rot from too much sun, seams split from over loading and zippers fail from exposure and misuse.

You name it, we can fix it! Fully equipped with industrial machines, we are ready to tackle repair jobs large or small.

Patch - We have many choices of fabric to sew a patch that matches your item and provides the ultimate reinforcement.

Restitch - Using SolarFix®, an indestructible Teflon thread, we will restitch your entire project from top to bottom.

Replace - We replace vinyl windows as well as unusable hardware like zippers, snaps, buckles, velcro and bungees.

Clean - We thoroughly scrub and bleach your project to remove mold, dirt and stains.

Treat - Our services include using Fabric Guard 303 treatment to bring water repellency back to your fabric.

Recover - We thoroughly evaluate your project and fabricate a new cover only if needed. We recover cushions with existing foam if it is in good condition.

Removal and Installation - We offer pick up, removal, delivery and installation on all repair projects.

*** WE REPAIR:**

- vinyl windows
- covers
- tents
- enclosures
- bags
- awnings
- jackets
- shade sails
- sails
- campers
- cushions
- sling chairs

Need a REPAIR?

- 1 BRING US YOUR PROJECT or SEND A PHOTO**
Visit www.thecanvasworks.com or call 415.331.6527.
- 2 ASSESSMENT:** We will thoroughly examine your item and give you a fair and upfront idea of cost or replacement.
- 3 COMPLETION:** You can enjoy your recycled project after we carefully complete repairs and give your item new life.
