GUIDEBOAT COVER

CARE INSTRUCTIONS & INSTALLATION

Care and Cleaning

Your cover is fabricated in marine Sunbrella, a solution-dyed, acrylic fabric. It is recommended that you hose off your cover on a monthly basis with clear water. This will prevent dirt from becoming deeply embedded in the fabric and eliminates the need for more frequent, vigorous cleaning. With proper care, your new cover will only need a deeper clean every 2 to 3 years.

For easy day-to-day maintenance of your Sunbrella fabric:

- Brush off loose dirt.
- Spray on a cleaning solution of water and mild soap
- Use a soft bristle brush to clean and allow solution to soak in
- Rinse thoroughly and air dry.

For stubborn stains or mildew:

- Prepare a solution of 1 cup of bleach and one fourth cup mild soap per gallon of clean water.
- Apply directly to the stain for up to 15 minute
- Use a sponge and soft brush to clean the stain
- Rinse thoroughly and air dry
