

Residential COVERS

*** We make it happen!**

Dirt, sun, wind, water and animals can damage or ruin outdoor valuables. A high-quality cover will greatly reduce the wear and tear on your investment.

Fabric - Sunbrella fabric, a fabulous choice for outdoors, is UV, fade, mold and mildew resistant and has a 10 year warranty.

Thread - SolarFix® is made of 100% PTFE fiber. It is long lasting and extremely resistant to harmful UV rays

Hardware - Everything from zippers to snaps to velcro flaps, our hardware is thoughtfully chosen and attached so it stays in place.

Reinforcements - We determine areas that will take on extra wear and install PVC patches or leather trim for stability.

Fit - We template your project for an expert, tailored fit.

Function - We design and construct for minimal water intrusion and maximum protection. Key placement of sand bags, tie points and/or battens, keep your cover in place.

Aestheticsbecause we understand pride of ownership and strive to make your cover look great
