

Marine Cushions

*** We make it happen!**

Great quality seating is critical for both form and function. Our custom seating is handcrafted in Sausalito, CA.

Fabric - Sunbrella fabric, a fabulous choice for mariners, is UV, fade, mold and mildew resistant and has a 10 year warranty.

Foam - We provide a wide range of foam choices, including closed cell or dry foam for marine applications. We custom order sizes and cut odd shapes. We also recover existing foam.

Thread - SolarFix® is made of 100% PTFE fiber. It is extremely resistant to harmful UV rays, making it the best choice for marine applications.

Seams - For every cushion, we over-lock seams with a serger so there will be no fraying after washing.

Zippers - Sturdy, easy to use plastic zippers and pulls are used to ensure no rust from the elements.

Underlining - We fabricate cushions with special underlining mesh for superior breathability on a boat.

*** Our design team has the expertise required to provide top-level seating products, as well as fast, friendly service. We are happy to guide you on design details including style, fabric, foam, and fit.**
