

Marine Bimini Tops

WHY?

The Canvas Works™

Craftsmanship

....because we template, measure and design your project to ensure your bimini top looks great and fits perfectly

Service

....because we provide care, expertise and insight during the fabrication and installation process

Practicality

....because we fabricate and secure your bimini top so you have the most functional and protective space

We make it happen!

Enjoy your boating experience with sun protection from one of our specialized bimini tops. We can build from the deck up.

Fabric - Sunbrella and Stamoid fabrics are both fabulous choices for mariners. They are UV, fade, mold and mildew resistant and have a 10 year warranty.

Thread - We use thread that is made of 100% Teflon PTFE fiber, making it extremely resistant to UV rays. Its durability makes it the best option for bimini construction.

Function - Frames can be designed to be semi-permanent structures or collapsible for versatility.

Structure - We create custom frames or work with your existing frame. Using 1" to 1.25" OD thick wall stainless 316 tubing, our frames are made for strength and function.

Fit - We carefully template the stainless structure on your vessel to ensure the final bimini top is a taut and tailored fit.

Options - We can install solar panels, skylight viewing ports, or extensions to your dodger. We also will fabricate a bimini boot to cover your bimini when collapsed.

Our team designs and constructs all sizes and shapes of bimini tops, tailored for your specific boat. We take the time required to make an exceptional product that protects you from sun and rain for years of boating pleasure.

Need a new BIMINI?

- 1 **GET AN ESTIMATE:** Visit www.thecanvasworks.com or call 415.331.6527.
- 2 **APPROVAL:** Together we approve, schedule and assess your boat structure so we can fabricate a top notch bimini.
- 3 **COMPLETION:** We install and secure your stanchions and bimini top so you have the ultimate protection when boating.
