

Deck Accessory Covers

We make it happen!

Boats are equipped with many stationary and movable parts that can be damaged by the elements. The best option for keeping these deck accessories in working order is to keep them covered when not in use.

Fabric - Sunbrella and Stamoid fabrics are both fabulous choices for mariners. They are UV, fade, mold and mildew resistant and have a 10 year warranty.

Thread - We use thread that is made of 100% Teflon PTFE fiber, making it extremely resistant to UV rays. Its durability makes it the best option for deck accessory covers.

Hardware - Everything from zippers to snaps to bungees, our hardware is carefully chosen and attached so it stays in place and functions properly.

Fit - We measure and template each boat component to ensure the final cover is a secure, tailored fit.

Reinforcements - Areas with potential for abrasion are reinforced in order to protect both the cover and the piece being covered.

Function - Our covers are designed and fabricated for minimal water intrusion and maximum protection so your boat component has optimal visibility, airflow and accessibility.
