

Sailboat Dodgers

We make it happen!

WHY?

The Canvas Works.

...because we scrutinize every detail of your dodger including fit, function and aesthetics. Your dodger will be customized to both your boat and your personal needs, whether you are a casual day sailor or an offshore cruiser.

We Offer - Optional side and aft handrails, interior pockets, skylights, bimini extensions, hardtops and full covers.

A well constructed dodger is the best way to stay sheltered from rain or spray while sailing, at anchor or in the slip. Dodgers offer the ultimate protection to those in the cockpit or companion way.

Fabric - Sunbrella and Stamoid fabrics are both fabulous choices for mariners. They are UV, fade, mold and mildew resistant and have a 10 year warranty.

Thread - We use thread that is made of 100% Teflon PTFE fiber, making it extremely resistant to UV rays. Its durability makes it the best for dodger enclosures.

Hardware - Everything from zippers to snaps to frames and fittings, our hardware is top of the line and installed by our professional field techs so it is weather tight and applies the proper amount of tension and security.

Fit - We carefully template your sailboat to ensure the final dodger enclosure is a drum-tight, tailored fit.

Reinforcements - We fully assess the possible abrasion points of your boom and rigging so your dodger can be properly and thoughtfully reinforced for longevity.

Function - We design and fabricate for minimal water intrusion and maximum protection. Key placement of windows and zippers provide optimal visibility, airflow and accessibility.

Installation - We finish and install your dodger to ensure you are fully satisfied. We automatically add covers for all windows to reduce any weathering.
