

Fabric Canopies

We make it happen!

WHY?

The Canvas Works.

Customization

...because every structure is different, our solutions are tailored and custom fit to integrate with your living space

Design

...because we strive to maximize coverage for sun and weather protection

Practicality

...because we plan the best way to seam, fasten, and secure your canopy so you have the most efficient, functional and easy-to-use product

Fabric canopies are an effective way to create protection from sun and rain for your outdoor living spaces. We have many creative solutions for your unique structure.

Fabric - Sunbrella and Stamoid fabrics are both fabulous choices for residential canopy. They are UV, fade, mold and mildew resistant and have a 10 year warranty.

Thread - We use thread that is made of 100% Teflon PTFE fiber, making it extremely resistant to UV rays. Its durability makes it the best for all types of enclosures.

Hardware - We select and install the best stainless hardware available to meet the needs of the project.

Structure - Our team can custom fit your fabric canopy to most any type of structure whether it is a small wooden pergola or a large steel frame.

Function - We design and construct your canopy for maximum protection, flexibility and ease of use.

Fit - We carefully measure, template, and design your canopy to ensure the final installation is secure, easy to use and aesthetically pleasing.

Fabric canopies can be adapted for a pergola, gazebo, pavilion, carport, deck, restaurant seating area, porch or floating home. They can be retractable like a roman shade or fixed like a shade sail.

Need a new CANOPY?

- 1 GET AN ESTIMATE:** Visit www.thecanvasworks.com or call **415.331.6527**.
- 2 APPROVAL:** Together we do a site visit to measure and approve all your project details so we can put you on our schedule.
- 3 COMPLETION:** We design, sew and install your canopy to ensure maximum functionality and long lasting protection.
